about ptg event services

the journey to becoming the smartest rental company around started in 1997, in a basement in Fresh Meadows, renting inflatable amusements and tables. After success in providing equipment for small events, we expanded to offer tents. Our focus was to learn everything we could about products, product care, safety and finding the right people. We slowly assembled a team of smart folks that became experts in tent installations and servicing the special events industry. We are lucky enough to support notable food events, music festival and brand activations throughout NYC area and even across the country. While our experience in event type is vast, our commitment to each project is steadfast.

The last few decades saw four warehouse moves to accommodate our expanding inventory, a growing fleet of trucks to shuttle equipment and an ever expanding team of people passionate about their job. Our commitment to training, safety and equipment standards have always been part of this growth and continues to be our mission.

tents

what kind of tent do i need?

the term "tent" can refer to a variety of temporary covered spaces. the following list of definitions will help you choose the best solution for your event.

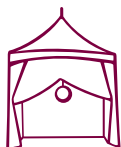

pop-up tents are lightweight free standing tents. these require a minimum of one 50lb sand bag per leg. they can be used on grass or concrete and can be installed by the customer.

frame tents consist of a vinyl canopy that is supported by a framework of aluminum pipes. the framework does not require a center pole for support, however, still needs to be anchored with ropes & stakes or weights. traditional frame tents are great for backyard parties and can be installed on most surfaces including decks, patios, unlevelled ground and sand.

marquees are frame style tents that are often used to connect tents to homes. they can also be used to connect several tents to each other in cases of inclement weather. marquees can also be installed on stairs and over narrow spaces. these tents are available in sizes starting at 9' or 6' wide and 5' long. the length can be increased in increments of 5' and 10' and can extend to any length required.

high peak tents are frame tents that feature less hardware and a modern silhouette. these tents provide the versatility of a frame tent with the elegance of a rope and pole tent. this style tent is available in smaller units and can be combined to create larger coverings. unique structures, hexagon and triangle tents, are also part of the high peak tent family. there are some limitations in installation. a site inspection is recommended.

pole tents are a classic tenting solution that relies on center support poles and exterior guidelines that extend 6-8' outside the perimeter of the tent. we offer pole style tents that use tension in the fabric top to add support to the structure. these tents are able to handle higher winds and longer installations than traditional pole tents.

1.888.401.2020
www.ptg.biz

the **saddlespan** tent offers a modern solution for an event space. with the elements of a tension tent and the innovative design essential in the event industry, the saddlespan can be used as a band shell or combined to create a stunning special event space.

s2000: approximate footprint: 40' x 60' /2000 sq ft usable space

s5000: approximate footprint: 60' x 70' /4000 sq ft usable space

s5000 closed: approximate footprint: 60' x 90' /5000 sq ft usable space

The **clearspan** structures offer many benefits including:

- clear space without centerpoles and guy lines
- ideal branding capabilities
- white or clear vinyl tops and walls are available in most sizes
- easy to heat and air condition – climate controllable with kedered sidewalls
- structure is engineered for high winds and inclement weather

small beam clearspan

- strong structure with rafters that can accommodate up to 250lbs distributed per bay allowing for av equipment, lighting, event décor, etc.
- legs are standard at 10' high – custom heights available
- widths available include 16', 20' 30'
- 10' or 15' bays

medium beam clearspan

- strong structure with rafters that can accommodate up to 800lbs distributed per bay allowing for av equipment, lighting, event décor, etc.
- legs are standard at 10' high – custom heights available
- 40' width available
- 20' and 10' bays

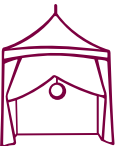

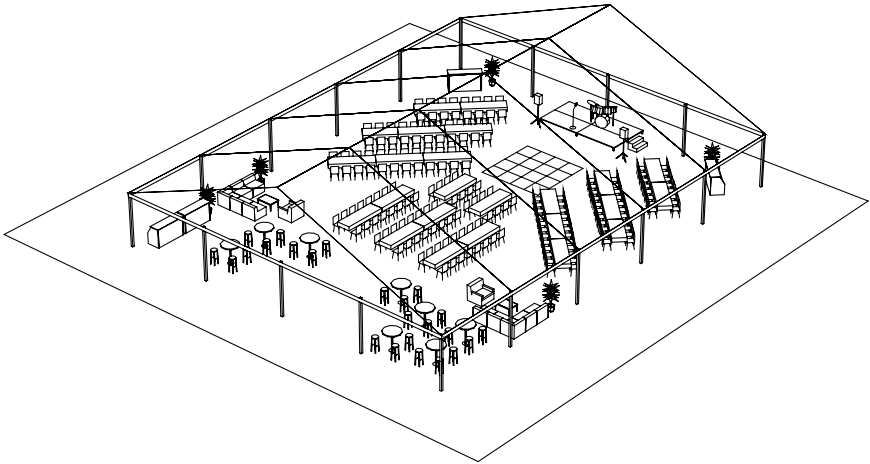

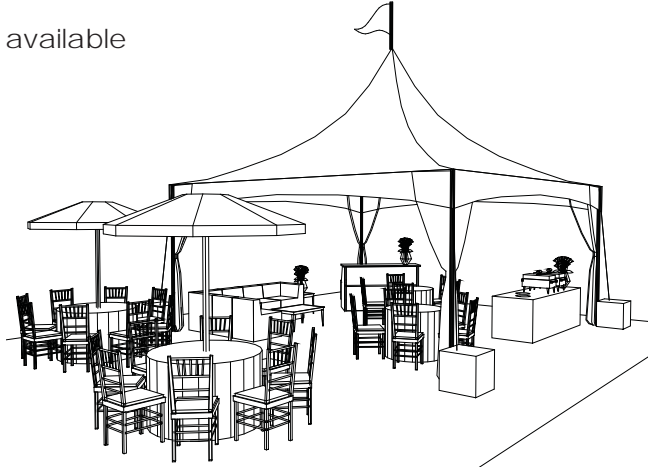

large beam clearspan

- strong structure with rafters that can accommodate up to 1000lbs distributed per bay allowing for av equipment, lighting, event décor, etc.
- leg heights available include:
3m (9.8'), 4m (13'), 5.4m (17.5') high (custom heights available)
- widths available include:
12m, 15m, 18m, 20m, 25m, 30m, 40m, 50m
- 5m bays (16.4') provide clear entrance and exit to the tent

what size tent do i need?

tent capacities vary depending on the number of guests, buffet tables, the use of dance floors or the placement of staging or a reception area. the general rule is to allow ten to eighteen square feet per person. at ptg event services a consultant will help you select the appropriate tent style and size for your event.

our policy

reservations

reservations are firm when a deposit is made. the deposit amount is a percentage of the total anticipated charges.

delivery

delivery service is available at a small additional charge. delivery rates are based on first floor delivery to your door or dock. additional charges are made for other than first floor delivery, excessive time involved, and areas not easily accessible to the delivery vehicle.

responsibility

responsibility for equipment remains with the customer from time of delivery to time of pick-up. please be sure equipment is secured when not in use and protected from the weather. we charge replacement cost for missing items, breakage and damage, including boxes.

pick-up service

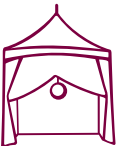

goods for pick-up should be assembled and available for ptg personnel. to avoid additional charges all items must be clean and repackaged in the same containers as delivered. tables and chairs must be folded and stacked and in the same location as delivered. if the equipment is unavailable for pick-up on the agreed date and time, additional charges will apply. late hour pick-ups can be arranged for an additional charge.

replacement costs

replacement costs or repair charges will be assessed on any equipment damaged by the customer. charges will be assessed for property returned dirty, china and other food service items not fully rinsed and residue free, or linens returned with excessive soiling. please make special arrangements when you know you will not be able to clean items before they are returned. a charge will be made for all boxes and crates not returned.

cancellation fees

any cancellations of a contract must be made in writing, signed by the purchaser and dated. purchaser is liable for up to full balance due if cancellation is made less than thirty days prior to affair. deposits are not refundable.
